REF: AGU26
Abstract ID: 2070697
Abstract Title: Probabilistic Atmospheric Model for Cloud Field Prediction

Dear Hanyue Shen,

Thank you for submitting an abstract for consideration for AGU26. This meeting will have both an in-person and virtual format. The meeting will be held on 7-11 December 2026, with in-person events taking place in San Francisco, CA, USA.

This letter serves as an invitation for you to attend AGU26 and to request an expedited visa appointment, if applicable. The abstract submission period is open from mid-June 2026 until 1 August 2026 and letters of notification will be distributed by email in early October 2026 confirming acceptance of the abstract.

AGU's annual meeting is the largest and most influential event in the world dedicated to the advancement of Earth and space science. Every year, the Annual Meeting unites the Earth and space science community to share findings, connect like-minded scientists from around the world, and advance our profession and shared passion for the impact of science. It convenes thousands of researchers, scientists, educators, students, policymakers, science enthusiasts, journalists, and communicators who are driven to better understand our planet and environment, and our role in preserving its future.

AGU's annual meeting is open to all those with related interests in the Earth and space sciences. It is a results-oriented gathering rooted in celebrating and advancing positive individual and collective outcomes. The meeting program is designed to foster an expansive scientific culture through:

- Solution-focused content in a rapidly changing environment
- Meaningful conversations with government leaders and regulatory agencies
- Innovation from those in tech, publishing, and space exploration
- Learning from transformative leaders who have done groundbreaking research
- Experiential learning experiences
- Networking and community development
- Partnerships with other organizations and sectors to address scientific and societal challenges

This letter serves as an invitation for you to attend AGU26. The meeting is open to all those with related interests in the Earth and space sciences. Participation in the meeting includes attending sessions in your areas of interest and an opportunity to communicate with others working in the field of geophysical sciences.

This is an invitation to attend the meeting, but not personal sponsorship of your attendance in San Francisco, CA. You will need to secure your own funding for registration fees and, if applicable, travel and housing expenses. Please refer to the AGU website for information at: <https://www.agu.org/annual-meeting>.

We look forward to your attendance at AGU26.

Sincerely yours,

Nicole Oliphant
